SOLUTIONS FOR BUSINESS PRINTING

1145

The Tally Dascom 1145, is a 24 pin, 80 column serial dot matrix printer with USB interfaces as standard. Compact in size, the 1145 is perfect for industrial environments and front and back office applications where space is limited. With low running costs, high quality output and an easy to use control panel it's ideal for small business, low volume listings and reports, as well as dispatch notes and labels.

Amongst the lowest priced matrix printers available today the 1145 also offers a long life ribbon giving this printer very low running costs. For draft printing it's considerably less expensive running costs make it a viable alternative to low cost ink-jet printers.
